

Sleep, Work & Relax

INTRODUCTION

VALO Hotel & Work Helsinki is located in a calm neighbourhood right by the beautiful central park, just 15 minutes from Helsinki's museums, opera halls and cultural centers. The iconic Helsinki trams take you from the hotel to the city center in 20 minutes. You can park and charge your electric car in our private garage if you're traveling by car. We have direct transportation to and from the airport.

Experience Finland at its best at our rooftop wellness area. You'll find renewal at our handcrafted log saunas, relaxation pools and steam room overlooking the city. You can also get your heart rate up or enjoy a sweet tread-

mill stroll at our expertly outfitted gym.

VALO rooms are serene like summer cottages where cosy Finnish design meets modern comforts. Special care has been paid to offer the best quality of sleep: You won't hear a peep from your neighbours, you can adjust the lighting just the way you like it and choose the perfect temperature. Cherry on top is the perfectly crafted bed. The snug rooms inspire a sense of home, a space that is just yours. They have all the traditional comforts of a modern hotel room, like a large TV you can hook up to your own on-demand accounts, and as well as a room tablet with 24/7 room service.

Good food is our passion. Bistro ELO serves a fresh and pure menu prepared with the best Nordic ingredients. Our menu changes with the seasons and offers a highly curated list of organic European wines. We have a wonderful selection of non-alcoholic drinks as well. For delicious drinks, stop by at Lounge & Bar SUO. The stylish cocktail bar is a comfortable living room that shines with a uniquely perfect design.

VALO hotel rooms serve a dual purpose. Each room can be converted into an office room upon request. We have other spectacular office facilities as well within the hotel, you're most welcome to enjoy a workday at VALO Work!
